Please list symptoms, previous treatments/ tests, and any relevant information:

- I consent the Leslie Diamond Women's Heart Health Clinic to access my laboratory results
- I consent the Leslie Diamond Women's Heart Health Clinic to access my cardiac investigations

All patients will be triaged and receive an initial consultation with a nurse practitioner or a cardiologist. Intensive risk factor assessment and counselling on family history, lifestyle, nutrition, exercise, and smoking cessation, with follow up as needed to achieve recommended targets will also be offered on an as needed basis. Patients will be referred to other appropriate services as needed including rehab, social worker, and dietician.
